

## Helen Berezina

Helen Berezina is a Procurement and Supply Chain professional with combined 16 years of experience in the petrochemicals, finance and FMCG sectors. She has a foundation of commercial and general management skills, built across a range of programme management, transformation, business development, and procurement and supply chain roles.

Helen has held a range of strategic Procurement and Supply Chain Management (PSCM) positions with BP in the US, UK, and China, as well as roles with a private financial advisory group in Switzerland and a global transformation role with SABMiller plc. Helen's areas of expertise include PSCM strategy development, procurement functional transformation initiatives and capabilities development, and end-to-end strategic sourcing processes.

Helen holds a Bachelor of Arts degree in Supply Chain Management from Michigan State University and an Executive MBA from INSEAD.
