Digital Talent Market Places

LINK2SOURCING

Link2Sourcing is an online on-demand marketplace for Professional Sourcing and Procurement services.

We connect companies with experts in a safe and transparent online environment.

It's made by procurement people for procurement people.

Success comes from people, not tools

How do help make this happen?

- We give priority to people rather than technology
- We provide easy, global access to expertise
- We ensure knowledge and quality of our experts and ensure customer satisfaction
- We don't compete with recruiters or consulting companies

THANK YOU

Digital Talent Market Places

What is the need for flexible expertise?

Will companies use Digital Markets?

Will independent consultants use Digital Markets?
